COST EFFECTIVE PROTECTION

PRODUCT DESCRIPTION

- Puncture resistant multilayer aluminium foil.
- A salt-water resistant, UV and weather durable coating.
- The aluminium foil is reinforced with a ultra tough, close weave scrim.
- The flexible closed cell physically crosslinked polyolefin foam underneath allows for distribution of impact force so inhibiting mechanical damage to the insulation.
- Flexible, tough and durable with UV and weather durable coating.
- Excellent compression resistance due to its crosslinked foam structure.
- Superior insulating properties compared to other flexible closed cell foams.
- Although designed to be resistant to mechanical damage, Foilflex 11 No-Clad has been designed for easy fabrication using sharp knives.
