

SNAKE PRO
A WHOLE DIFFERENT ANCHOR

A WHOLE DIFFERENT ANCHOR

The **Snake Anchor** is a patented internally threaded self-tapping anchor with ETA option 1 approval for cracked and uncracked concrete. It is the only ETA option 1 approved drop-in type anchor on the market.

- M8, M10 ETA Approved.
- Removable for temporary fixings.
- Very small edge distances approved.
- No hammer required.
- Complete grip over total anchor length.
- Can be removed completely (no steel left in concrete).
- Can be installed closer to the edge than traditional mechanical anchors.
- Up to 6 times faster installation in comparison with drop-in anchors.
