

## POLY SLEEVE

# THE MOST CONVENIENT LAGGING

**Poly Sleeve** is made using a closed cell, physical crosslinked, polyolefin foam with an outer skin. Primarily used around all stormwater and sanitary plumbing drain pipe penetrations through footings.

## PROFILES:

- 54 ID x 10mm wall x 6m
- 114 ID x 10mm wall x 6m
- 160 ID x 10mm wall x 6m

## PRODUCT INSTALLATION

**STEP 1:**  
Unroll the coil of Poly Sleeve and have the pipe ready at hand.

**STEP 2:**  
Cut to size and fit one end over the pipe and pull the sleeve onto the pipe.

**STEP 3:**  
Successfully create an expansion joint around the pipe.
