

**V LOCK**

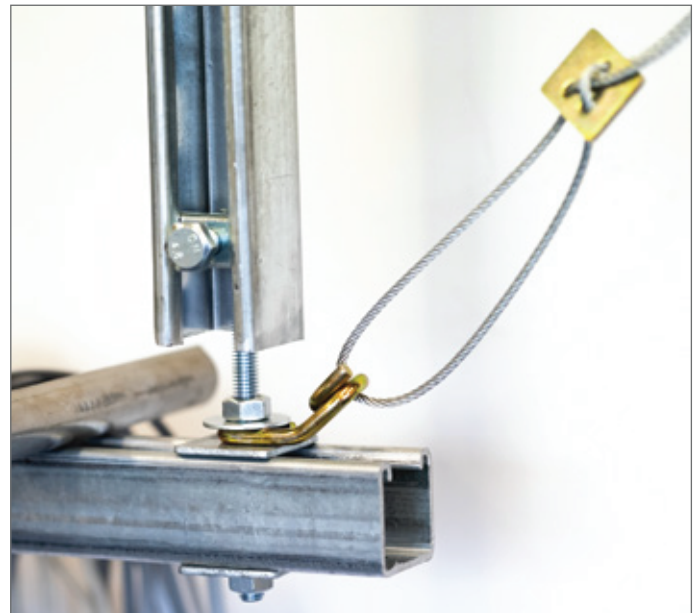

# BRACE YOURSELVES... FOR EFFECTIVE SEISMIC BRACING & SUSPENSION HANGING SOLUTIONS

The new V Lock range by Drillfast will ensure you are equipped with every product you could need to solve all code compliance issues for non-structural building services.

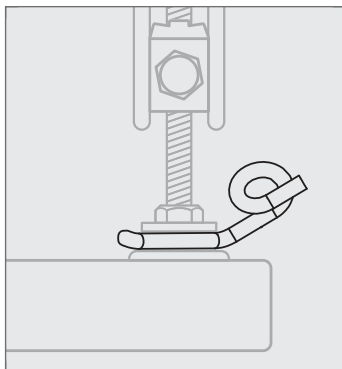

Simplifying complexity and providing the lowest cost solutions, the product range is made to suit all types of hanger arrangements: hook brackets, angle brackets, purlin clips, loop end and spike ends.

## FEATURES & APPLICATIONS

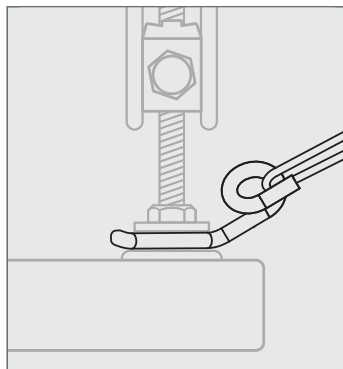

- Easy on-site installation
- Can be made to retrofit existing services
- Cost effective products
- Custom solutions to solve complex projects

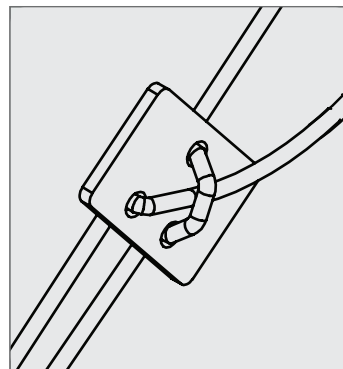

## TYPICAL SEISMIC BRACE INSTALLATION

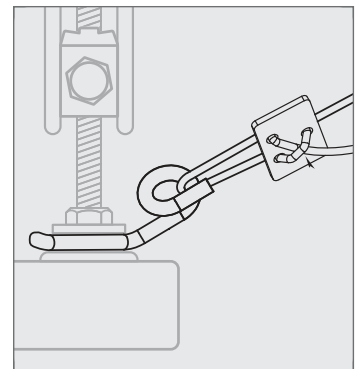

Secure hook  
to the trapeze

Loop wire through  
the hook
